

ARCATA RECESSED

Qty:

Type:

Project Name:

Catalog Number:

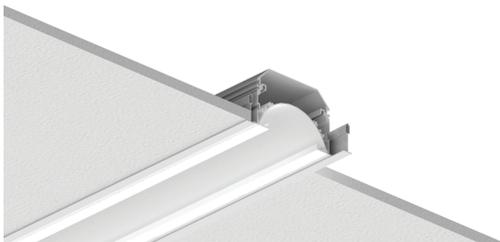

ARCATA'S precisely designed indirect optics and parabolic reflector combine to produce uniform direct illumination without distracting glare. Joint shields eliminate the look of fixture connections, creating lines of continuous, unbroken light.

ARCATA fits into drywall ceilings as well as most grid ceiling systems, including the Armstrong TechZone™ system. In addition to a standard wide-spread distribution, ARCATA also offers an asymmetric distribution for wall washing.

ARCATA's excellent performance make it an ideal fixture for accumulating LEED certification points.

SPECIFICATIONS

Grid Ceiling Mount

Drywall Ceiling Mount

Housing

Constructed of three-piece .090" thick extruded aluminum and available in single sections of 2', 3', 4', 5', 6', 7' and 8' long. Continuous rows and custom lengths are available in increments down to 1". Standard flange finish is white. Custom flange colors are also available.

Optical Controls/Distribution

Standard Distribution -and- Asymmetric (Wall Wash) Distribution

Matte white film (minimum 96% reflectivity) installed into curved parabolic reflector - conforming to its shape.

Clear acrylic snap-in lenses cover the LED light engines for easy wipe-down cleaning.

Arcata is available in two distinct distributions:

Symmetric: Soft, glare-free wide-spread distribution for even, natural-feeling illumination.

Asymmetric: Directional glare-free distribution for high-lighting and wall washing.

Reflector

.065" thick extruded aluminum reflector assembly. Snaps-in to fixture housing and is removable from below for driver/wire-way access.

Certifications

Fixtures are ETL listed for use in 'Dry or Damp Applications'. Fixtures conform to UL Standard #1598 and to CAN/CSA #C22.2NO.250.0. Fixtures are IC (Insulation Contact) rated.

Color Temperatures/CRI

LED light sources are available for the following Co-ordinated Color Temperatures (CCT):
Standard: 2700K, 3000K, 3500K, 4000K, & 5000K
Color Rendering Index (CRI): Standard: 80
Optional: 90

Warranty

10-year limited warranty. No other warranty is expressed or implied. Complete warranty terms can be accessed by visiting:
<https://pal-lighting.com/company/warranty>

Revit Files

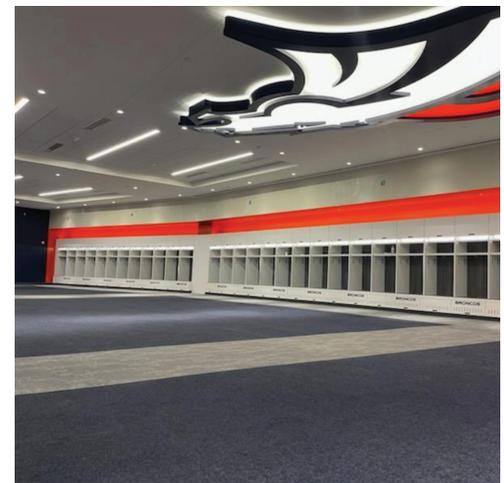

Revit model (BIM) files for the ARCATA Series are available by visiting:

ARCATA - Fixture Performance

DIM0 Dimming 100% to 0%	NLCKT Night-Light Circuit (Common Neutral)
DIM1 Dimming 100% to 1%	EMCKT Emergency Circuit (Sep. Hot & Neutral)
DIM5 Dimming 100% to 5%	EBPHST Emergency Battery Pack - 10 Watt ⁷ Self-Testing. (Integral Mount)
DIM10 Dimming 100% to 10%	GTD Generator Transfer Device (Integral Mount)
	FS Slow-Blow Fuse & Fuse Holder (Integral Mount)
	CP Chicago Plenum Listing

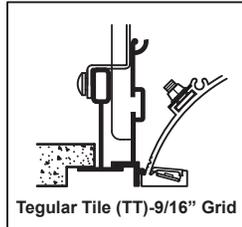

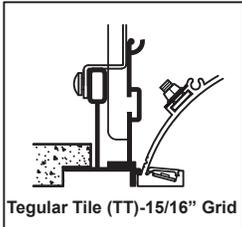

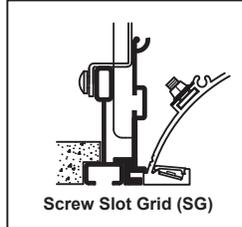

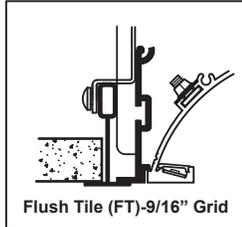

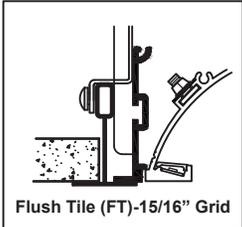

Notes:

- All fixtures are factory pre-wired for a single circuit. Provisions for multiple switching/circuiting is optional.
- Unless otherwise requested, all fixtures contain integral-mount "power-on-board" drivers.
- All fixtures intended for continuous rows are provided with factory installed quick-connect wiring.
- Standard power supply (driver) is UL/CUL recognized, and is available with 0-10V dimming capability and 120 thru 277 universal voltage.
- All ARCATA recessed fixtures carry an "IC" - Insulation Contact Rating.
- Note: Spackle Flange fixtures are not intended for post-ceiling installation. (Fixtures must be mounted prior to installation of the ceiling.)
- Standard emergency battery pack is a 10 Watt constant power, self-testing, UL 924 listed pack from Iota Engineering - providing 1000 lumens of light for approximately 90 minutes. Battery packs are integral mounted unless otherwise notified. *Note: Remote mounted battery packs are not wet location listed.
- Custom length fixtures and fixtures rows may require a longer lead time. Contact specs@pallighting.com for more information.
- ARCATA fits into Armstrong TechZone™ ceiling systems.
