

# Build America, Buy America Act

## Build America, Buy America Act (BABAA)

The **Infrastructure Investment and Jobs Act** - also known as the **Bipartisan Infrastructure Law**, was enacted in 2021 to increase domestic manufacturing across the United States. A key part of this act is the “**Build America, Buy America Act**”, or (**BABAA**.) Simply put, the **BABAA** requires that products used for **Infrastructure Investment and Jobs Act** (“**IJA**”, **PUB. L. 177-58**) projects will:

“Be manufactured or produced in the United States. This means the manufactured product itself is built in the United States, and the cost of the components of the product mined, produced, or manufactured in the United States is greater than **55%** of the total cost of the manufactured product.”

**All PAL Architectural products manufactured at our Houston, Texas facility meet the requirements of the Build America, Buy America Act (BABAA.)**
